Description:

Largo Armchair conveys a unique sense of power and sculpture with its clear silhouette. The creative sheet design has subtly hidden the connection structure, enhancing a visual of space. In addition, the combination of leather, wool and fabric creates a distinctively layered visual effect, demonstrating a harmonious balance between natural leather surfaces and modern fabrics, and also placing higher demands on the manufacturing process. The highly recognizable color schemes add a touch of fun and artistry, better adapting to various modern spaces with different styles.
